Introducing SunOff™

SunOff™

Introducing SunOff™ by Valspar®, the latest breakthrough in coatings technology for the building products market. Based on a new product chemistry utilizing exclusive resin technology to Valspar, the SunOff™ family of coatings provides market-leading infrared reflective technology, superior durability and low VOC/HAPs free.

The SunOff™ Product Family - One Technology, Unlimited Possibilities

SunOff™ - 3 Series

- Passes AAMA 613/623
- Provides strong performance at an economical value

SunOff™ - 4 Series

- Passes AAMA 614/624
- Provides superior performance and gloss retention

SunOff™ - 5 Series

- Passes AAMA 615/625
- For the most durable coating in any condition

SunOff™ is designed to be able to work within your existing facility, with minimal operational modifications. It can be applied using your existing technology:

- HVLP/Compliant Spraying
- Conventional sprays
- Air-assisted Airless and /or Airless
- Electrostatic turbo disc/bell
- Additional application methods possible

- Superior Durability – Passes All AAMA Tests
- Cool - Infrared Reflective Technology
- Safe – Ultra-low VOC and HAPS-Free
- Flexible – Works on Fiberglass, Vinyl and Wood

by valspar

Introducing SunOff™

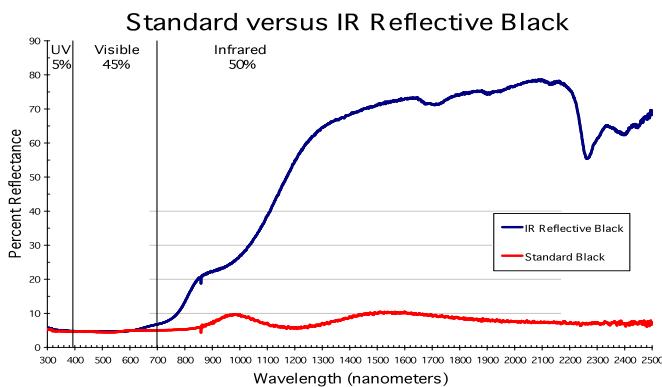

Environmentally Friendly

- Waterborne 2K Coating – Utilizes Valspar’s Exclusive Resin Technology
- Ultra-low VOC
 - 15 Times less than leading Solvent-Based products
 - 0.33 lbs/gallon
- HAPS-Free

Stays Cool - Solar Reflective Technology

- 33% Cooler Across Multiple Colors
 - Vertical Heat Build-Up Test
- Improved Durability
 - Significantly Reduces Degradation of Coating
 - Color Last Longer
- Ability to Custom Match to Virtually Any Color
 - Enables the Use of Darker Coating Shades on Vinyl

Market Comparison SunOff™ vs. Competing Coating Systems

Systems and Properties	SunOff 2K Waterborne	2K Solvent-Borne	1K Waterborne	2K Waterborne	2K Non Heat Reflective Solvent-Borne
Solar Reflective	Yes	Yes	Yes	No	No
VOC	0.33 lbs/gal.	3.5 lbs/gal.	1.55 lbs/gal.	1.00 lbs/gal.	5.0 lbs/gal.
